

North Newton's Path to Re-Entry (Revised 6-7-21)

The North Newton School Corporation understands that a return to instruction in some form or fashion is what is best for our students. Additionally, our first priority is the safety and health of our students and staff during this COVID-19 pandemic. As a result, this plan helps to reinforce specific provisions and considerations that have been, and continue to be undertaken to help ensure that the health and safety needs of our staff and students are addressed to the best of our ability.

Over the past twelve months, much has been learned about COVID-19 and our abilities to pivot in many areas to keep school open and running. All staff should be commended on their adherence to guidelines, in reinforcing protective measures and following the North Newton Path to Re-Entry.

Administrators in the district have been quite adept and skilled in quarantining students and staff, conducting testing, contact tracing and doing everything within their power to keep school open. These lessons learned will serve us well as we look to return for the 2021-2022 school year.

Based upon parent and staff feedback, and information received from Governor Eric Holcomb, CDC guidelines and recommendations, and the Newton County Health Department, the North Newton School Corporation will continue in-person instruction as scheduled starting Friday, August 13, 2021 with increased precautions in place PENDING Low/No Spread of the COVID-19 disease. Should infections in our county, area or state increase, we will proceed to the second phase of our plan as noted for minimal/moderate spread. Information from state and local experts will continue to be the driving force behind all decisions to conduct school and the models that are utilized.

It is recommended to the North Newton School Board of Trustees, that all students K-12 return to all in-person instruction and no Virtual Learning to be offered. Additionally, it being recommended that mask usage be recommended when necessary, but not required for all students and staff.

Level of Community Spread (as determined by state and local health officials)

	Substantial Spread RECOMMENDATIONS	Minimal/Moderate Spread RECOMMENDATIONS	Low/No Spread RECOMMENDATIONS

Entering School Buildings³

School buildings are closed; only *essential staff* report in-person to carry out functions that are *absolutely necessary*.

District/School Considerations:

- Remain vigilant and purposeful as they determine roles, responsibilities, and reporting requirements for staff, refraining from blanket reporting requirements
- Leverage virtual tools and platforms wherever possible to conduct essential business and keep in-person reporting to an absolute minimum during school closures

District/School Considerations:

- Post signage in classrooms, hallways, and entrances to communicate how to stop the spread. COVID-19 symptoms, preventative measures (including staying home when sick), good hygiene, and school/district specific protocols.
- Follow protocol for students/staff who feel ill/experience symptoms when they come to school
- Mark spaced lines to enter the building and designate entrance and exit flow paths
- Screen students and staff (to the extent practicable):
 - Take temperatures ideally before entering buildings
 - Isolate and send home if internal temperature over 100.4°F (38°C)
 - Consider safety and privacy concerns (confidentiality should be maintained)
 - Establish a protocol for visitors: calling front office before entering, screening visitors, requesting use of face coverings/masks, etc. Restrict nonessential visitors and volunteers.
- Establish a protocol for student pick/drop up: staggered entry and release (by grade, class, or bus numbers), marked spacing for pickup

District/School Considerations:

- Enforce standard operating procedures while taking preventative measures such as:
 - Provide hand sanitizer for students and staff
 - Limit unnecessary congregations of students and staff
 - Schedule restroom breaks to avoid overcrowding when possible
 - Post signage in classrooms, hallways, and entrances to communicate how to stop the spread. COVID-19 symptoms, preventative measures (including staying home when sick), good hygiene, and school/district specific protocols
 - Adhere to protocol for students/staff who feel ill/experience symptoms when they come to school
 - Adhere to protocol for visitors: calling front office before entering, screening visitors, requesting use of face coverings/masks if required, visitors evaluated when entering building classrooms, eating lunch with children, etc.

- <https://www.doe.in.gov/covid-19/resources>

- *daily routines and social interactions to address their individual learning needs.*

A/B schedules

- *Alternating Days:* students would be divided into 2 groups, likely geographically. Groups would alternate face-to-face and virtual instruction during the week.
- *Alternating Weeks:* Group A Students – Week 1 and Group B Students Week 2;
 - *Half Days:* AM/PM

Targeted Distance/Remote Learning

- *Elementary Face-to-Face with Secondary Distance Learning:* Prioritize 6-12 or 9-12 for continuous distance learning while other students have access to face-to face instruction

•

- Target interventions and supports:
 - Provide additional instructional supports to:
 - ✦ students at-risk of not graduating on time
 - ✦ students with disabilities
 - ✦ students who struggled in the prior distance/remote learning environment (i.e. early grades, English Learners, etc.)
 - ✦ other students identified as being behind academically by teachers and parents.
 - Identify essential concepts/skills grade levels and provide access to enrichment (fine arts, music, world language, computer science, AP/IB, dual enrollment, physical education/play, STEM/STEAM, etc.)
- Address learning loss:
 - Provide extended learning opportunities through before/after school programs, Saturday school, etc.
- Review/refine the digital learning plan
- Integrate virtual learning practices:
 - ✦ digitizing lessons
 - ✦ requiring a certain number of online assignments for each grading period

frequently and restricted to authorized staff/students.

- Establish procedures for safely transporting anyone who is sick home or to a healthcare facility.
- Notify local health officials, staff, and families immediately of a possible case while maintaining confidentiality consistent with the Americans with Disabilities Act (ADA) and other applicable federal and state privacy laws.

- Close off areas used by a sick person and do not use before cleaning and disinfection.

- Advise sick staff members and children not to return until they have met state DPH criteria to discontinue home isolation. Inform those who have had close contact to a person diagnosed with COVID-19 to stay home and follow state DPH guidance if symptoms develop. If a person does not have symptoms, follow appropriate state DPH guidance for home quarantine.

[Symptoms of Coronavirus](#)

[What Healthcare Personnel Should Know About Caring for Patients with Confirmed or Possible COVID-19 Infection](#)

CDC Guidance [Standard Precautions](#)
[Transmission-based Precautions](#)

<p>Faculty and Staff Support</p> 	<p>District and School Considerations:</p> <ul style="list-style-type: none"> ○ Faculty and Staff are encouraged to update contact information, verify the health and safety of employee and employee families ○ Contact Karen Zackfia, Director of Business regarding applicable leaves of absence ○ Absence reasons will be tracked through Final Forms and AESOP. Staff will be asked to respond on leave requests if they experience any of the following: fever and/or chills, shortness of breath, cough, fatigue, muscle aches, loss of taste or smell, sore throat, nausea, vomiting. Student symptoms will be tracked through Final Forms. By tracking symptoms, we will be able to assist with contact tracing should someone be confirmed to have contracted COVID-19. ○ Superintendent and/or Lana Wynn will notify the Newton County Health Dept. to report positive cases and to the IDOE. This is accomplished through the ISDH portal for tracking purposes. ○ Continued training on symptoms of COVID-19, prevention techniques and district/school procedures ○ Continued training of custodial and maintenance staff on effective methods of cleaning and disinfecting work and play areas and the time schedules for cleaning. ○ Continue to monitor whole staff gatherings/meetings, social distancing, wear masks, break down into smaller groups when possible ○ Vendors continue to be monitored entering building ○ Hand sanitizer and masks are plentiful at each building. Teachers and staff should talk with their building custodian to secure supplies.
<p>Exclusion from School and Return to School</p>	<p>District and School Considerations:</p> <ul style="list-style-type: none"> ○ Students and employees should be excluded from school if they test positive for COVID-19 or exhibit one or more of the symptoms of COVID-19 based on CDC Guidance that is not otherwise explained (fever or 100.4 degrees F or greater; cough; shortness of breath or difficulty breathing; chills; repeated shaking with chills; muscle pain; headache; sore throat; new loss of taste or smell) ○ Once excluded, they may return if they satisfy the recommendations of the CDC and ISDH
<p>Instructional Model and Flexibility</p>	<p>District and School Consideration</p> <ul style="list-style-type: none"> ○ In-Person attendance to commence on first instructional day, August 13, 2021 with flexibility of parents to enroll their child/children in Virtual Learning grades 7-12 with appropriate doctor verification; teacher continued contact with students in classroom; Students must commit to a 9 weeks (K-6) or semester (9-12); Online Virtual instruction will be continually monitored;

	<p>Parents required to meet with principal to develop Virtual Learning Plan.</p> <ul style="list-style-type: none"> ○ You will note that in the event of a documented positive case, short-term closure may be appropriate. Schools and local health departments are encouraged to keep schools open and operating as much as possible. The CDC Decision Tree has the school closing for potentially two- five days so the local health department or the Indiana State Department of Health can engage with your team to recommend further testing, cleaning, etc.; however, this health/medical review may be done on the same day as a positive case to reduce school closure time. (Per IDOE IN-CLASS document) ○ Regarding flexibility, it may be necessary to require face masks if circumstances in our area (geographical and/or county) worsen. A determination will be made by the county health department regarding masks. The district will follow all ISHD and Governor Holcomb's executive orders.
Notice Concerning Changes	<p>District and School Considerations:</p> <ul style="list-style-type: none"> ○ <i>As information becomes updated by the Governor's Office, the Indiana Department of Health, the Newton County Health Department, the Indiana Department of Education and other experts, these considerations will change to reflect the guidance. The plan created here is being put in place with the best information available at the current time.</i> <p>6-3-21</p>
