

North Harrison Community Schools
Return to In-person Instruction
2021-22

NHCS is planning to return to full in-person instruction for the coming school year.

NHCS will continue to monitor information from the Center for Disease Control (CDC), the Indiana Department of Health Services (IDHS), and the Harrison County Health Department.

NHCS will continue to coordinate with other county school districts to provide a county wide approach to the safe return of all students and staff.

NHCS will continue to provide hand sanitizing stations throughout its buildings, have hand washing breaks for students throughout the day, and have hand sanitizer available in each class.

NHCS will continue to maintain clean facilities by continuing the cleaning protocols established in 2020-21.

NHCS will continue to follow isolation and quarantine recommendations from the CDC, IDHS, and local county health department.

NHCS will make Covid-19 tests available in nurses' stations for those students and staff that meet IDHS testing criteria.

NHCS will ensure that the accommodations are made for children with disabilities that allows them the opportunity to have the same health and safety policies as non-disabled students.

NHCS will work in coordination with the IDHS and the Harrison County Health Department to provide a safe, clean, and healthy school environment.

This plan was approved at the June 9, 2021 regular meeting of the NH School Board, where the public was given an opportunity to comment.

Our overall plan will be reviewed as needed or, at a minimum, every six months.

The superintendent can make changes to the plan as needed in consultation with the board.
