

JSC 2021-2022 COVID Mitigation Plan

Beginning July 1, 2021, current executive orders of the Governor have returned COVID-19 mitigation decisions regarding schools back to local school boards; therefore, Jay School Corporation (JSC) will return to standard operational practices that follow board policy and student handbook guidelines concerning the health and safety of our students, staff, and school community.

The wearing of masks will be optional. The choice of each will be respected by all.

As the school year progresses, JSC will consider guidance from the Jay County Health Department in regards to the public health status of our community. If facts demonstrate increased cases/spread in our schools, JSC is prepared to reactivate necessary and relevant portions of our previous [2020-2021 COVID plan](#).
